#### 4. Explanation Notes

- (i) The above is only a summary illustration of the major benefits of your Policy. You should refer to the Company for more information or, if appropriate, a more detailed proposal.
- (ii) The Basic Plan Illustration in Section 3 relates to your Basic Plan excluding any riders or additional benefits as shown in Section 2 (if applicable). It assumes that (a) all premiums are paid in full as planned, (b) no claims have been made, and (c) no withdrawal is made. If Partial Withdrawals are made, claims have been paid, future benefits will be affected accordingly.
- (iii) The amount of total premium(s) may differ slightly from the total of the premiums payable in the Policy due to rounding differences. All premiums paid credited to the Policy begin accruing interest on the following day. Accrued interest will be credited to the Policy Account on each Policy Anniversary, and (where applicable) on the death of the Insured or the surrender of the Policy.
- (iv) When reviewing the values shown in the above illustration, please note that the cost of living in the future is likely to be higher than it is today due to inflation.
- (v) Crediting interest rate is not guaranteed and is subject to change during the term of the Policy and may equal to the Guaranteed Minimum Crediting Interest Rate (0%) in the most adverse situation. The current crediting interest rate declared by the Company or crediting interest rate history shall in no way be interpreted as a projection or estimation of future return.
