Table of Crediting Interest Rate

The Company will declare the crediting interest rate from time to time. The Crediting Interest Rates under the two scenarios applied in Section 3 are as follow:

| Policy Year | Guaranteed Basis | Current Assumed Basis |
|-------------|------------------|-----------------------|
| 1 | | |
| 2 | | |
| 3 | | |
| | 0% | 2% |

4. Explanation Notes

- (i) The above is only a summary illustration of the major benefits of your Policy. You should refer to the Company for more information or, if appropriate, a more detailed proposal.
- (ii) The Basic Plan Illustration in Section 3 relates to your Basic Plan excluding any riders or additional benefits as shown in Section 2 (if applicable). It assumes that (a) all premiums are paid in full as planned (b) no Withdrawal is made (If Withdrawal(s) are made, future benefits will be affected accordingly), and (c) no claims have been paid.
- (iii) The amount of total premium(s) may differ slightly from the total of the premiums payable in the Policy due to rounding differences. All premiums paid will be credited to the Policy and begin accruing interest on the following day. Accrued interest will be credited to the Policy Account on each Policy Anniversary, and (where applicable) on the death of the Insured or the surrender of the Policy. Crediting interest rate is not guaranteed and is subject to change during the term of the Policy and may equal to the Guaranteed Minimum Crediting Interest Rate in the most adverse situation. The current crediting interest rate declared by the Company or crediting interest rate history shall in no way be interpreted as a projection or estimation of future return.
- (iv) The above illustration of Death Benefit is equal to 105% of Account Value. In addition to Death Benefit, subject to the other terms of this Policy, the Company will pay an additional benefit of 100% of the Account Value to the Beneficiary as Accidental Death Benefit, provided that: (1) the death of the Insured is caused directly and solely by an accident; and (2) the death of the Insured occurs within 180 days from date of the accident; and (3) the accident takes place before the Policy Anniversary immediately preceding the seventy-first (71st) birthday of the Insured. This Accidental Death Benefit is subject to the maximum of HK\$400,000 per Insured life under all Savie Insurance Plan policies issued by the Company.
- (v) When reviewing the values shown in the above illustration, please note that the cost of living in the future is likely to be higher than it is today due to inflation.
- (vi) Please refer to the product brochure of Basic Plan for the details of the investment strategy, crediting interest rate philosophy (including different crediting interest rates for different cohort of universal life policies) and key product risks (including but not limited to credit risk, liquidity risk, exchange rate and currency risk, inflation risk, early surrender risk, non-guaranteed benefits, exclusions and termination conditions).
